GRAVE FOREST SITUATION FOLLOWS SEPTEMBER HURRICANE

Woodland problems of timber salvage and fire control created in many towns by the September hurricane are of the greatest importance. GOOD CITIZENSHIP CALLS FOR PERSONAL AND WIDESPREAD ACTION !

The salvage of every thousand feet of logs which can be sold means money for landowners, wages for workers, employment for trucks, teams and machinery, as well as reduced forest fire hazard for all. If owners of windthrown timber have not yet acted, they should communicate with those who can help. TOWN CHAIRMEN are fully informed; STATE ADVISORY AGENTS can help to start logging by suggesting names of operators and giving other useful advice; FEDERAL AGENCIES are increasing the number of log storage places as rapidly as possible. INDIVIDUALS MUST NOW COOPERATE !

Forest fire danger for several years will be greater than usual. So much work must be done by public agencies to reduce hazard along roadsides, near improved and other exposed areas that many places will remain hazardous for some time to come. INDIVIDUAL LANDOWNERS MUST TAKE A PERSONAL INTEREST ! Aid in clean-up work through the Agricultural Conservation Program is available to any woodland owner at \$4.00 per acre on areas up to 15 acres. The County Agent should be consulted.

Support your local Forest Fire Wardens and Deputies. They are planning, with State and Federal

agencies, an intensive campaign to control fires. Help them by strict observance of the fire laws. Kindle no open fires without a permit from the Warden except when the ground is covered with snow. Cooperate by reporting fires you may see and in other ways. Fire fighting tool supplies are inadequate and should be reasonably increased by many towns. **YOU CAN HELP, AND IT WILL PAY, TO PREVENT FOREST FIRES !**

The teaching staff of the Windham schools remains the same as for the previous year. Music, under the direction of Mrs. Hinkle, continues to be enjoyed by all of the pupils.

During the current year we have installed a modern and widely adopted system of reading in the first grade of Number Six School. One serious handicap that faces many a pupil as he progresses in school is the inability to profit adequately from the printed page. The adoption of such a system, which is designed to teach

reading gradually and is promoted by careful planning and guidance on the part of the teacher, in all the primary grades of the Windham Schools seems necessary.

In order to teach more effectively from the Social Science textbooks which were installed in recent years it seems advisable to furnish the seventh and eighth grade teacher with workbooks to accompany the text books. The workbooks have been introduced this year.

Although the teachers have been furnished with textbooks and workbooks of a modern language series for each grade, such materials should be placed in the hands of each pupil. Less pupil and teacher time will be lost and the time now given over to dictation and copying from the blackboard may better be spent by the teacher in actual teaching. The ability of a pupil to express himself in written and oral form is a fundamental aim of education. This objective may more nearly be reached by the adoption of a modern language series.

In looking to other book needs for the next few years our attention should center on dictionaries, literature and science for grades seven and eight, health and language for all grades.

During the current year the form of report card has been altered and the change appears to have been well received.

A more efficient and complete office record system has also been installed.

Each pupil in grades two through eight has been given a standard mental test. These test results serve a very useful purpose to the teacher in guiding the progress of a child. Before the close of the school year the first grade pupils will be given a similar test.

The so-called eight week system, as adopted this year, is designed to eliminate pupil fatigue during the winter and spring terms.

We are very optimistic as to the future educational opportunities which will be offered the Windham pupils with the completion of the new two room school house. The hard and conscientious efforts of the joint school board and building committee to make this possible is a real service to the town.

May we as parents, townspeople, and school officials continue to work together in order that we may give to Windham the best educational advantages possible.

Respectfully submitted,

Edward I. Erickson

Superintendent of Schools

February 16, 1939.
